

**You don't
need a gym to
get strong.**

just a floor and a little patience

Push-ups, but make them progress.

- 1 Incline on a counter or bench
- 2 Knees down, full range
- 3 Standard, slow on the way down
- 4 Feet elevated

Own 3 sets of 12 before you move up a level.

swipe →

Your legs don't care where you train.

- 1 Bodyweight squats
- 2 Reverse lunges
- 3 Split squats, back foot on a couch
- 4 Slow tempo, 3 seconds down

slower = harder, no weights needed

Consistency beats equipment.

Save this for your next home workout, and tag the friend who says they can't train without a gym.
